## OFFICE OF MANAGEMENT AND BUDGET

### Budget Deferrals

TO THE CONGRESS OF THE UNITED STATES:

In accordance with the Impoundment Control Act of 1974, I herewith report 59 deferrals of fiscal year 1982 funds totaling $147.0 million.

Fifty-six of the deferrals, totaling $95.1 million, constitute the first group of deferrals of fiscal year 1982 funds made available for the period through November 20, 1981, by the Continuing Resolution, Pub. L. 97–51. These deferrals are intended to preserve Congressional options to act favorably on the proposals for reductions in fiscal year 1982 budget authority that I announced on September 24, 1981, and subsequently transmitted to the Congress. These deferrals recognize the intent of Congress, reaffirmed during House and Senate action on the Continuing Resolution, that amounts provided in Continuing Resolutions are ceilings, not mandatory spending levels.

Accordingly, where the Continuing Resolution provides amounts in excess of my requests for the period of the resolution, deferrals are being proposed to restrain spending to levels in my requests until action on regular appropriations is complete. However, exceptions have been made in this general policy to avoid major administrative or personnel problems or to avoid serious disruption of an agency's missions.

Deferrals under the Continuing Resolution are included in this special message for the Executive Office of the President and twenty-two departments and agencies. Additional deferrals under the Continuing Resolution will be transmitted during the next week.

Three other deferrals, totaling $51.9 million, included in this special message report on amounts routinely carried forward from fiscal year 1981 in the Department of Health and Human Services that cannot be used immediately or are withheld pending completion of a review.

The details of each deferral are contained in the attached reports.

THE WHITE HOUSE,
October 20, 1981.

## DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

| | |
|---|---|
| Agency: Executive Office of the President | New budget authority (P.L. 97-51): $3,119,000 |
| Bureau: The White House Office | Other budgetary resources: -0- |
| Appropriation title & symbol: Salaries and Expenses 1120110 | Total budgetary resources: 3,119,000 |
| | Amount to be deferred: Part of year: $ 366,000 |
| | Entire year: |
| OMB identification code: 11-0110-0-1-802 | Legal authority (in addition to sec. 1013): ☐ Antideficiency Act |
| Grant program: ☐ Yes ☒ No | ☐ Other |
| Type of account or fund: ☒ Annual | Type of budget authority: ☒ Appropriation |
| ☐ Multiple-year (expiration date) | ☐ Contract authority |
| ☐ No-year | ☐ Other |

Justification: The White House Office provides the President with staff assistance and administrative support. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on the program will be to postpone certain activities of the White House Office which would not be accomplished under the President's revised budget request.

Outlay Effect: This deferral action -- by itself -- has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $366,000 of the annual savings could be attributed to the funding level now available.

## DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

| | |
|---|---|
| Agency: Exec. Office of the President | New budget authority (P.L. 97-51): $ 229,600 |
| Bureau: Special Assistance to the President | Other budgetary resources: -------- |
| Appropriation title & symbol: Salaries and Expenses 1121454 | Total budgetary resources: 229,600 |
| | Amount to be deferred: Part of year: $ 27,552 |
| | Entire year: ------- |
| OMB identification code: 11-1454-0-1-802 | Legal authority (in addition to sec. 1013): ☐ Antideficiency Act |
| Grant program: ☐ Yes ☒ No | ☐ Other |
| Type of account or fund: ☒ Annual | Type of budget authority: ☒ Appropriation |
| ☐ Multiple-year (expiration date) | ☐ Contract authority |
| ☐ No-year | ☐ Other |

JUSTIFICATION: The Office of the Vice President provides assistance to the President through support of the Vice President as he performs specially assigned and statutory functions and responsibilities. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

ESTIMATED EFFECTS: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The immediate impact of this deferral is that funding is not available for unanticipated costs or added responsibilities.

OUTLAY EFFECT: This deferral action -- by itself -- has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $27,552 of the annual savings achieved could be attributed to the funding level now available.

## DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

| | |
|---|---|
| Agency Executive Office of the President | New budget authority (P.L. 97-51 ) $ 146,160 |
| Bureau Council on Environmental Quality and Office of Environmental Quality | Other budgetary resources |
| Appropriation title & symbol: Salaries and Expenses 1121453 | Total budgetary resources 146,160 |
| | Amount to be deferred: Part of year $ 8,500 |
| | Entire year |
| OMB identification code: 11-1453-0-1-802 | Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other |
| Grant program ☐ Yes ☒ No | |
| Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year | Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other |

Justification: The Council on Environmental Quality and the Office of Environmental Quality analyze environmental issues and trends; review and appraise Environmental Impact Statements under NEPA; recommend policies for protecting and improving the quality of the environment; assist in coordinating Federal environmental programs which involve more than one agency; assist in the preparation of the President's annual report to Congress; and undertake special studies and analyses relating to environmental issues. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on the program will be minimal to the CEQ operations.

Outlay Effect: This deferral action — by itself — has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $8,500 of the annual savings achieved could be attributed to the funding level now available.

| Grant program ☐ Yes ☒ No | |
| Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year | Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other |

Justification: The Office of Policy Development (Domestic Policy Staff) advises and assists the President in the formulation, evaluation and coordination of national domestic policy; coordinates and supports the activities of the Cabinet Councils; and, in accordance with Executive Order No. 12296, supports the President's Economic Policy Advisory Board. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on the program will be to defer decisions on the level of continuing staff activity and support.

Outlay Effect: This deferral action, by itself, has no significant impact on fiscal 1982 outlays. However, if the Congress provides regular appropriations at a level consistent with the President's request, $45,231 of the annual savings achieved could be attributed to the current funding action.

Justification: This appropriation provides for the operation of the National Security Council. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final Congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L.97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on the agency's operations will be minimal.

Outlay Effect: This deferral action -- by itself -- has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $62,020 of the annual savings achieved could be attributed to the funding level now available.

JUSTIFICATION: This office provides common administrative support to the ten agencies within the Executive Office of the President, and upon request, provides services in direct support of the President. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extension thereof.

ESTIMATED EFFECTS: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The immediate impact of this deferral will be to postpone several Office of Administration projects.

OUTLAY EFFECT: This deferral action -- by itself -- has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $138,600 of the annual savings achieved could be attributed to the funding level now available.

Justification: The Office of Federal Procurement Policy is responsible for promoting economy, efficiency and effectiveness in the procurement of property and services by and for the executive branch. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on the program will be to defer selected projects of the Office.

Outlay Effect: This deferral action—by itself—has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $24,438 of the annual savings achieved could be attributed to the funding level now available.

| Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year | Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other |

Justification: The Office of Science and Technology Policy provides analysis and advice to the President and his staff and other members of the Executive Office of the President on major scientific and technological policies, plans, and programs of the Federal government. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1,1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact will be a slightly reduced amount obligated primarily for contracts, consultants and travel.

Outlay Effect: This deferral action -- by itself -- has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $25,000 of the annual savings achieved could be attributed to the funding level now available.

Justification: The U.S. Trade Representative is responsible for the supervision and coordination of U.S. foreign trade policy. In addition, the office has policy and negotiating responsibility for direct investment, trade in commodities and energy, export expansion and East-West trade. It is necessary to defer these funds to preserve all funding options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extension thereof.

Estimated Effects: This deferral action will restrain the rate of obligation that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on the Office will be to restrain travel, the procurement of equipment and supplies and the use of personnel services other than direct-hire.

Outlay Effect: This deferral action -- by itself -- has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $76,000 of the annual savings achieved could be attributed to the funding level now available.

## DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

| | |
|---|---|
| Agency: U.S. Department of Agriculture | New budget authority (P.L. 97-51): $ 162,834,000 |
| Bureau: Foreign Assistance Program | Other budgetary resources: |
| Appropriation title & symbol: Expenses, Public Law 480, Foreign Assistance Programs, Agriculture 12X2274 | Total budgetary resources: 162,834,000 |
| | Amount to be deferred: Part of year: $ 25,696,000 |
| | Entire year: |
| OMB identification code: 12-2274-0-1-151 | Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other |
| Grant program: ☐ Yes ☒ No | |
| Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year | Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other |

Justification - The Agricultural Trade Development and Assistance Act of 1954, P.L. 83-480, as amended, authorizes the President in Titles I and III to negotiate with friendly countries to provide for the sale of agricultural commodities for dollars on credit terms or for foreign currencies; and in Title II to furnish agricultural commodities on behalf of the people of the United States to meet famine or other urgent or extraordinary relief requirements. Section 403 of the Act authorizes to be appropriated such sums as may be necessary to carry out this Act.

It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed but not beyond the expiration of the Continuing Resolution or any extensions thereof. This deferral of $25,696,000 is also appropriate because estimated program receipts from Title I long-term credit sales repayments are usually greater in the first quarter of the fiscal year based on the historical pattern of receipts. Thus, the full appropriation authorized under the continuing resolution is not required.

Estimated Effects - This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. This deferral is expected to have no impact on the total planned Title I commodity volume for FY 1982.

Outlay Effects - This deferral action--by itself--has no significant effect on fiscal year 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $25,696,000 of the annual savings achieved could be attributed to the funding level now available.

| Grant program: ☐ Yes ☐ No | ☐ Other |
| Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year* | Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other |

Justification:

This appropriation provides for the operation and improvement of the Arlington National Cemetery and Soldiers' Home National Cemetery. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on the program will be to reduce maintenance of the Arlington National Cemetery.

Outlay Effect: This deferral action -- by itself -- has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $85,400 of the annual savings achieved could be attributed to the funding level now available.

*None of these funds are being deferred

| [X] Multiple-year September 30, 1982 (expiration date) | [ ] Contract authority |
| [ ] No-year | [ ] Other ____ |

Justification: The Refugee Assistance Program reimburses States for cash and medical assistance and social services to refugees. Although the Department's FY 81 cash and medical assistance shortfall was met through the use of unexpended prior year funds and reprogrammed FY 81 funds, the Department continues to defer $10 million in social services funds until the completion of a review to determine whether the FY 82 cash and medical assistance appropriation is adequate to meet actual State needs for FY 1982. Deferral of the social services funds pending outcome of this study will preserve the flexibility of the Administration and Congress if the results of the review indicate the FY 1982 cash and medical assistance appropriation is inadequate to meet State needs. This deferral action is taken in accordance with the Anti-deficiency Act, (31 U.S.C. 665).

Estimated Effects: Deferral of funds pending the outcome of this study should not cause a significant interruption in the provision of services to refugees in most States. Only a small portion of services funding is being delayed until completion of this study.

Outlay Effects: This deferral will have no outlay effects.

Justification:
Congress provided $10 million in this appropriation for a Cuban and Haitian Entrants, Reception and Processing contingency reserve. A portion of this reserve was used to fund the FY 81 start up and operations cost of Ft. Allen, Puerto Rico to relieve overcrowded camp conditions at Krome North, Miami, Florida. The remaining $4,900,000 will be held in reserve until needed. This deferral action is taken in accordance with the Antideficiency Act (31 USC 665).

| Type of account or fund: [ ] Annual; [ ] Multiple-year ____ (expiration date); [X] No-year | Type of budget authority: [X] Appropriation; [ ] Contract authority; [ ] Other ____ |

**Justification:**

Congress provided $26 million in this appropriation for the Cuban and Haitian Entrants unaccompanied minor program in FY 1981. These funds were authorized to provide assistance, reimbursement to the States and make grants to, and contract with, public and private non-profit agencies for the care of these children. The Office of Refugee Resettlement (ORR) obligated only $9 million in FY 1981 for this activity. Therefore, ORR is proposing to defer $17 million of carry-over balances in FY 1982. In addition, Congress provided a $20 million contingency reserve for FY 1981 in the event that the original estimates for cash, medical, and State Administration were too low. These funds were not obligated in FY 1981, and are now deferred. These deferral actions are taken in accordance with the Antideficiency Act (31 USC 665).

**Estimated Effects:**

There will be no budgetary or programmatic effects as a result of this deferral action.

**Outlay Effects:**

This deferral action will have no effect on outlays.

| Type of account or fund: [X] Annual; [ ] Multiple-year ____ (expiration date); [ ] No-year | Type of budget authority: [X] Appropriation; [ ] Contract authority; [ ] Other ____ |

Justification: The Housing Counseling Assistance program provides grants and technical assistance to HUD-approved private and public non-profit housing counseling agencies which in turn provide information and advice to current and prospective tenants and homeowners of HUD-assisted or HUD-insured housing. It is necessary to defer these funds to preserve all funding level options in appropriations actions taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. This deferral action may cause fewer awards or awards of lesser amounts to be made while this deferral is in effect.

Outlay Effects: This deferral action--by itself--has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, about $0.1 million of the annual savings achieved could be attributed to the funding level now available.

| Type of account or fund: ☐ Annual | Type of budget authority: ☒ Appropriation |
| ☐ Multiple-year (expiration date) | ☐ Contract authority |
| ☒ No-year | ☐ Other |

**Justification:**

The Acquisition, Construction, and Maintenance appropriation provides for construction of buildings, recreation facilities, roads, trails, and bridges necessary for management of the public lands; purchase of easements to assure access to the public lands for their management and use; and maintenance of facilities to protect the public investment and the health and safety of public land users. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the congress subsequent to October 1, 1981. This deferral will remain in effect until final Congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

**Estimated Effect:**

This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal year 1982 budget request. The impact on the program will be to defer purchase of some easements and to defer contracts related to survey, design, and maintenance of facilities. In addition, a hiring "freeze" to help improve flexibility to meet the reduced budget levels will remain in effect and equipment purchases will be held to a minimum.

**Outlay Effect:**

This deferral action — by itself — has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $121,000 of the annual savings achieved could be attributed to the funding level now available.

**Justification:** The construction program funds major construction and rehabilitation projects. Deferral will not seriously affect this program as lower priority projects can be continued at a later date. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extension thereof.

**Estimated Effects:** This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (PL 97-51) to a rate consistent with the President's current fiscal year 1982 budget request. The impact on the program will be to defer construction of new facilities at National Elk Refuge in Wyoming and Mackay Island, Virginia.

**Outlay Effect:** This deferral action—by itself—has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $392,000 of the annual savings achieved could be attributed to the funding level now available.

Justification: The programs of the Geological Survey are designed to provide basic scientific data concerning water, land, energy, and mineral resources, and to supervise the exploration, development, and production of minerals and mineral fuels on leased Federal, Indian, and Outer Continental Shelf lands. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (PL. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on the programs will be to delay certain procurements and this can be accomplished without serious adverse impacts on programs.

Outlay Effect: This deferral action — by itself — will have no significant effect on fiscal year 1982 outlays due to its expected short duration. However, if Congress provides regular appropriations at a level consistent with the President's request, $7,756,000 of the annual savings achieved could be attributed to the funding level now available.

|---|---|
| Agency: Department of the Interior | New budget authority (P.L. 97-51 ) $ 400,000 |
| Bureau: Geological Survey | Other budgetary resources 14,550,000 |
| Appropriation title & symbol: Exploration of National Petroleum Reserve in Alaska 14X0805 | Total budgetary resources 14,950,000 |
| | Amount to be deferred: Part of year $ 80,000 |
| | Entire year |
| OMB identification code: 14-0805-0-1-271 | Legal authority (in addition to sec. 1013): ☐ Antideficiency Act |
| Grant program ☐ Yes ☒ No | ☐ Other |
| Type of account or fund: ☐ Annual | Type of budget authority: ☒ Appropriation |
| ☐ Multiple-year (expiration date) | ☐ Contract authority |
| ☒ No-year | ☐ Other |

Justification: This program carries out the provisions of Section 104 of Public Law 94-258. This Act transferred jurisdiction of the National Petroleum Reserve in Alaska from the Department of the Navy to the Department of the Interior on June 1, 1977. The Secretary of the Interior has charged the Geological Survey with carrying out the responsibilities of Section 104 of the Act. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final Congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effect: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (PL. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on the program will be to delay letting certain contracts. These delays will have minimum effect on the overall program.

Outlay Effect: This deferral action — by itself — has no significant effect on fiscal 1982 outlays due to its expected short duration. However if the Congress provides regular appropriations at a level consistent with the President's request, $27,000 of the annual savings achieved could be attributed to the funding level now available.

| Grant program: ☐ Yes ☒ No | |
| Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year | Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other |

Justification: The Regulation and Technology program seeks to protect society and the environment from the adverse effects of surface coal mining. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final Congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on the program will be to reduce the level of response to the states for technical assistance and, in addition, will necessitate deferral of the following: (1) evaluation of at least one state's first year program; (2) processing of two mine plans; and (3) approximately 5 percent of planned technical studies.

Outlay Effect: This deferral action—by itself—has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $1,100,000 of the annual savings achieved could be attributed to the funding level now available.

Justification: The Bureau conducts basic and applied research in mineral science and technology. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on the program will be to defer certain research and minerals information and analysis contracts.

Outlay Effect: This deferral action—by itself—has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $1,920,000 of the annual savings achieved could be attributed to the funding level now available.

| Grant program: ☒ Yes ☐ No | |
| Type of account or fund: ☐ Annual ☐ Multiple-year _____ (expiration date) ☒ No-year | Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other _____ |

Justification: Administration of Territories provides for the implementation of territorial policy, including support of capital infrastructure improvement, economic development assistance, and increased oversight and technical assistance.

It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The effect on the program will be to delay construction of capital infrastructure projects.

Outlay Effect: This deferral action — by itself — has no significant effect on fiscal 1982 outlays due to its expected short duration. Justification: The Trust Territory of the Pacific Islands Account provides grant funds to the Trust Territory for governmental operations, construction, and special program grants. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extension thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on the program will be to reduce the Trust Territory governmental operations to a spending rate which is consistent with the President's current fiscal 1982 budget request.

Outlay Effect: This deferral action — by itself — has no significant effect on fiscal 1982 outlays due to its expected short duration. Justification: The Acquisition, Operation and Maintenance of Buildings Abroad, Special Foreign Currency Program utilizes excess foreign currencies to acquire or construct real property and to finance buildings operation and maintenance costs to the greatest extent possible.

It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request.

Outlay Effect: This deferral action--by itself--has no significant effect on fiscal 1982 outlays due to its expected short duration. Justification: This appropriation provides for relief and repatriation loans to U.S. citizens abroad and for other emergencies of the Department of State. It is necessary to defer these funds to perserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: Since this appropriation is a contingency fund for emergency situations, this action has no foreseeable programmatic effect.

Outlay Effect: This deferral action--by itself--has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $84,000 of the annual savings achieved could be attributed to the funding level now available.

Justification: ACTION operates VISTA, Foster Grandparents, RSVP, Senior Companions, and other programs that support or demonstrate volunteering. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal year 1982 budget request. The impact on these programs may be to defer funding of some citizen participation, service learning, and demonstration grants and to defer some planned computer system improvements. ACTION may also need to defer refunding existing grants in some other programs. If so, it would seek to extend the terms of existing grants that had not expended all of prior year funds.

Outlay Effects: This deferral action -- by itself -- has no significant effect on fiscal 1982 outlays due to its expected short duration. Justification:
The Committee determines which commodities and services are suitable for government procurement from qualified nonprofit workshops employing the blind or other severely handicapped, determines the fair market price for such commodities and services, and assists and monitors the performance of workshops. It is necessary to defer these funds to preserve all funding level options in appropriation action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request, but not beyond the expiration of the Continuing Resolution or any extension thereof.

Estimated Effects: This deferral will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. Replacement of the present computer-word processing system will be deferred and travel will be curtailed.

Outlay Effects: This deferral action - by itself - has no significant effect on fiscal 1982 outlays due to its expected short duration. | Grant program: ☐ Yes ☐ No | |
| Type of account or fund: ☐ Annual ☐ Multiple-year (expiration date) ☒ No-year | Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other |

Justification:

The National Historical Publications and Records Commission provides grants for the collecting, editing, and publishing of papers and records of national historical significance.

In order to maintain obligation rates at a level that will preserve the options of the Congress to achieve the President's revised request, $140,000 is being deferred pending Congressional action on the President's revised request which does not contain funds for grants. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final Congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects:

This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on the program will be that no grants will be awarded under the Continuing Resolution and projects dependent on grant funds may be discontinued.

Outlay Effects:

This deferral action--by itself--has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $140,000 of the annual savings achieved could be attributed to the funding level now available.

| Agency General Services Administration | New budget authority (P.L. 97-51) $ 6,590,000 |
| Bureau Federal Property Resources Service | Other budgetary resources |
| Appropriation title & symbol | Total budgetary resources 6,580,000 |
| Operating Expenses | Amount to be deferred: Part of year $ 748,000 |
| 4720533 | Entire year |
| OMB identification code: 47-0533-0-1-999 | Legal authority (in addition to sec. 1013): ☐ Antideficiency Act |
| Grant program ☐ Yes ☒ No | ☐ Other |
| Type of account or fund: ☒ Annual | Type of budget authority: ☒ Appropriation |
| ☐ Multiple-year (expiration date) | ☐ Contract authority |
| ☐ No-year | ☐ Other |

Justification:

The Federal Property Resources Service (FPRS) manages the national stockpile of strategic materials, promotes maximum utilization of real property, assists in both the transfer of excess real property among Federal agencies and the disposal of surplus real property. FPRS also operates an excess Federal personal property program including the utilization, donation, rehabilitation and sale of such property.

In order to maintain obligation rates at a level that will preserve the options of the Congress to achieve the President's revised request, $748,000 is being deferred pending Congressional action on the President's revised request. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final Congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects:

This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on the program will be that essential operations will continue, but some discretionary expenditures will be deferred.

Outlay Effects:

This deferral action--by itself--has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $748,000 of the annual savings achieved could be attributed to the funding level now available.

Justification:

The Consumer Information Center is responsible for encouraging Federal agencies to develop consumer information and is charged with the responsibility of promoting public awareness of existing Federal consumer publications. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects:

This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on the program will be to decelerate dissemination of consumer information catalogues and free publications.

Outlay Effect:

This deferral action--by itself--has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $26,000 of the annual savings achieved could be attributed to the funding level now available.

OMB identification code: 55-0100-0-1-806

Grant program: ☐ Yes ☒ No

Type of account or fund: ☒ Annual ☐ Multiple-year _____ (expiration date) ☐ No-year

New budget authority (P.L. 97-51): $ 255,080

Other budgetary resources: 12,135

Total budgetary resources: 267,215

Amount to be deferred: Part of year $ 9,940 Entire year

Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other

Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The Advisory Commission on Intergovernmental Relations conducts studies to identify and analyze the causes of intergovernmental conflicts and recommends ways of strengthening and improving the American federal system. It is necessary to defer these funds to preserve all funding level options in appropriations actions taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The printing of some of the Commission's reports will be delayed.

Outlay Effect: This deferral action - by itself - has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $10 thousand of the annual savings achieved could be attributed to the funding level now available.

Amount to be deferred: Part of year $ 1,800 Entire year

Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other

Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other

Justification: The account funds the salary and related cost of the Commission and one staff position for the Delaware River Basin Commission. It is necessary to defer these funds to preserve all funding level options in appropriations actions taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final Congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extension thereof.

Estimated Effect: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (PL 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on this program will be to require that the Commissioner's position remain vacant for the month of October.

Outlay Effect: Because the program is limited to salary and related cost for two positions, the reductions associated with this deferral would not be made up later in the fiscal year. This deferral action is expected to save $1,800 in fiscal year 1982 outlays.

Justification: This account funds the Federal Government's share of the Delaware River Basin Commission compact. It is necessary to defer these funds to preserve all funding level options in appropriations actions taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final Congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extension thereof.

Estimated Effect: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (PL 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on this program will be a reduction in Federal support to the Delaware River Basin Commission compact budget which is matched on a percentage basis by the participating states.

Outlay Effect: This deferral action--by itself-- has no significant effect on FY 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request $4,400 of the annual savings achieved could be attributed to the funding level now available.

Justification: The Marine Mammal Commission is responsible for developing, reviewing, and making recommendations on actions and policies of all Federal agencies with respect to marine mammal protection and conservation. In addition, the Commission is charged, under the Marine Mammal Protection Act of 1972, with undertaking studies to further protect and conserve marine mammals. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact on the program will be to restrict obligations to salaries and expenses only. No funds may be obligated to undertake research projects.

Outlay Effect: This deferral action -- by itself -- has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $11,290 of the annual savings achieved could be attributed to the funding level now available.

Justification: The National Mediation Board (NMB) mediates labor disputes related to the negotiation of new contracts and determines collective bargaining representation in the railroad and airline industries. NMB also pays certain costs of resolving grievances and minor disputes, under Section 3 of Railway Labor Act, through the National Railroad Adjustment Board, Public Law Boards and Special Boards of Adjustment. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact will be to decrease the number of grievance cases resolved under Section 3 and to increase the backlog of such cases.

Outlay Effect: This deferral action - by itself - has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $58,000 of the annual savings achieved could be attributed to the funding level now available.

| Type of account or fund:<br>☐ Annual<br>☒ Multiple-year September 30, 1983 (expiration date)<br>☐ No-year | Type of budget authority:<br>☒ Appropriation<br>☐ Contract authority<br>☐ Other |

Justification: This appropriation funds the National Science Foundation's programs of basic research, applied research and other related scientific activities. The deferral will be applied to all programs across all organizational components of the Foundation. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final Congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: The programmatic impact of deferring these funds through November 20th will be minimal with the major effect of delaying funding of new grants which would otherwise be awarded during the period. The deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution to a rate consistent with the President's current fiscal 1982 request.

Outlay Effects: Because of the short duration of the deferral, there will be no significant effect on outlays. However, if the final Congressionally approved appropriation is consistent with the President's request, the annual reduction in outlays attributable to this deferral would be $7.77 million in FY 1982, $10.16 million in FY 1983 and $1.994 million in FY 1984.

Estimated Effects: This deferral action will restrain the rate of obligation that might otherwise occur under the Continuing Resolution to a rate consistent with the President's current fiscal 1982 budget request. The deferral will postpone funding proposed projects.

Outlay Effects: This deferral action — by itself — has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $20,000 of the annual savings achieved could be attributed to the funding level now available.

| Agency: National Science Foundation | New budget authority (P.L. 97-51): $ 3,843,000 |
| Bureau: | Other budgetary resources: -0- |
| Appropriation title & symbol: Science and Engineering Education Activities 4920106 | Total budgetary resources: 3,843,000 |
| | Amount to be deferred: Part of year: $ 2,623,000 |
| | Entire year: |
| OMB identification code: 49-0106-0-1-251 | Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other |
| Grant program: ☒ Yes ☐ No | |
| Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year | Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other |

Justification: This appropriation funds the National Science Foundation's support of science and engineering education. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final Congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: The deferral will have no programmatic impact because of the seasonal nature of the planned FY 1982 programs funded under this appropriation. The obligation rate will not exceed the rate consistent with the President's current fiscal 1982 budget request.

Outlays Effects: The deferral action will have no effect on outlays because of the short duration. However, if Congress provides regular appropriations at a level consistent with the President's request, the annual rate of savings in outlays attributable to the $2,623,000 would be $.5 million in FY 1982, $1.3 million in FY 1983, $.5 million in FY 1984 and $.3 million in FY 1985.

Deferral No: D82-83

## DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

| | |
|---|---|
| Agency: Neighborhood Reinvestment Corporation | New budget authority (P.L. 97-51): $ 2,023,000 |
| Bureau: | Other budgetary resources: |
| Appropriation title & symbol: Payment to the Neighborhood Reinvestment Corporation 9521300 | Total budgetary resources: 2,023,000 |
| | Amount to be deferred: Part of year: $ 181,160 |
| | Entire year: |
| OMB identification code: 82-1300-0-1-451 | Legal authority (in addition to sec. 1013): ☐ Antideficiency Act |
| Grant program: ☐ Yes ☒ No | ☐ Other |
| Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year | Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other |

Justification: The Neighborhood Reinvestment Corporation provides technical and organizational support to neighborhood groups in assisting them to form partnerships with local government officials and lending institutions in an effort to promote neighborhood rehabilitation and end neighborhood disinvestment. It is necessary to defer these funds to preserve all funding level options in appropriations actions taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The activities of the Neighborhood Reinvestment Corporation will be only slightly delayed by this action.

Outlay Effects: This deferral action--by itself--has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $181,160 of the annual savings achieved could be attributed to the funding level now available.

Deferral No: D 82-84

## DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

| | |
|---|---|
| Agency: Selective Service System | New budget authority (P.L. 97-51): $ 2,800,000 |
| Bureau: | Other budgetary resources: |
| Appropriation title & symbol: Salaries and Expenses 9020400 | Total budgetary resources: 2,800,000 |
| | Amount to be deferred: Part of year: $ 192,000 |
| | Entire year: |
| OMB identification code: 90-0400-0-1-054 | Legal authority (in addition to sec. 1013): ☐ Antideficiency Act |
| Grant program: ☐ Yes ☒ No | ☐ Other |
| Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year | Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other |

Justification: The Selective Service System registers young men as they reach 18 years of age and maintains a data base of registrant records in order to respond for an emergency need for military manpower as may be required by the Department of Defense. It is necessary to defer these funds to preserve all funding level options in appropriations actions taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51) to a rate consistent with the President's current fiscal 1982 budget request. The impact will be to stretch out the revitalization program.

Outlay Effect: This deferral action--by itself--has no significant effect on fiscal 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's request, $192,000 of the annual savings achieved could be attributed to the funding level now available.

Deferral No: 082-85

## DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

| | |
|---|---|
| Agency: Water Resources Council | New budget authority (P.L. 97-51) $ 350,000 |
| Bureau: | Other budgetary resources 1,096,879 |
| Appropriation title & symbol: Water Resources Planning 85X0100 | Total budgetary resources 1,446,879 |
| | Amount to be deferred: Part of year $ 42,000 |
| | Entire year |
| OMB identification code: 85-0100-0-1-301 | Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other |
| Grant program ☐ Yes ☒ No | |
| Type of account or fund: ☒ Annual ☐ Multiple-year (expiration date) ☐ No-year | Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other |

Justification: The programs carried out by the Water Resources Council have as their primary purpose the improvement of Federal, State, and regional water resources planning and development, and the coordination of Federal water resources policies. It is necessary to defer these funds to preserve all funding level options in appropriations action taken by the Congress subsequent to October 1, 1981. This deferral will remain in effect until final congressional action on the President's request is completed, but not beyond the expiration of the Continuing Resolution or any extensions thereof.

Estimated Effects: This deferral action will restrain the rate of obligations that might otherwise occur under the Continuing Resolution (P.L. 97-51)to a rate consistent with the President's over-all current fiscal year 1982 budget request. The impact will be to delay obligations for assessment and planning activities.

Outlay Effect: This deferral action--by itself--has no significant effect on fiscal year 1982 outlays due to its expected short duration. However, if the Congress provides regular appropriations at a level consistent with the President's over-all request, $34,000 of the annual savings achieved could be attributed to the funding level now available.

# Guide to Record Retention Requirements

**Revised as of January 1, 1981**

This useful reference tool, compiled from agency regulations and U.S. Statutes, is designed to assist industry and various sectors of the public with their Federal recordkeeping obligations.

The various digests in the "Guide" tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

In addition, the "Guide" contains the names, addresses, and phone numbers of contact persons within most agencies who can answer substantive questions about the requirements.

Each digest also carries a reference to the full text of the basic law or regulation providing for such retention.

The booklet's index lists for ready reference the categories of persons, groups, and products affected by Federal record retention requirements.
